# WHAT IS COSMOS MMXIII?

---

***Cosmos MMXIII is a 2013 calendar that consists of 12 original illustrations inspired by the universe and beyond.***

I'm offering it as a high-resolution pdf free download. You can print it, remix it, use it as a basis to create new illustrations or textures...

I'm releasing it under a Creative Commons Attribution-NonCommercial-ShareAlike 3.0 Unported License, meaning: as long as you don't use it on a commercial project and license your product under the same (or equivalent) license if you decide to share it, you're free to do with it as you please.

## FOR FREE? WHY?

After 10 years working as a graphic designer, I have stumbled upon a massive amount of content made by other designers on the internet who wondered, 'why not give away this stuff I just did for others to enjoy?'

I have always felt I owed some work to the 'community'. And here it is. Thank you all!

## WHO DID THIS?

My name is Jorge Fuentes. I like graphic design with character.

You can check my work at [www.jorgefuentes.net](http://www.jorgefuentes.net) and follow me on twitter (@jorgefuentesnet).
